[illegible] 29.—The large and extensive [illegible] as the Milburn Wagon Works [illegible] by fire this morning. The paint shop which is situated on the fourth floor in the rear of the eastern wing, was discovered on fire about 6:35 P. M. Before water could be turned on, the entire end of the wing was in flames. The fire department was promptly on hand, and aided by the Wagon Work's engine, did good service. The fire steadily progressed, however, and soon gained an entrance into the main building through the heavy fire-proof wall by means of the roof joists, and the entire main building as well as the western wing, was soon destroyed. The fire was here controlled by the department, and the western wing of the works saved. Over a thousand finished wagons, besides a very large number of unfinished ones were burned. The loss is supposed to be $350,000 or $400,000, on which there is an insurance of $135,000. Several firemen narrowly escaped death from falling walls. The disaster will throw about 350 men out of employment. The cause of the fire is supposed to be spontaneous combustion.

Probable Battle near Alexinatz.

LONDON, Sept. 29.—A dispatch from Nish dated yesterday says: Since 4 o'clock this morning there has been a continuous and heavy cannonade in the direction of Alexinatz.

Servian and Montenegrin Political News.

VIENNA, Sept. 29.—Gen. Suwaroff, the Czar's aide de camp, will pass through Belgrade on his return to Russia and have an interview with Prince Milan.

It is reported that Montenegro has sent a reply identical with Servia refusing a renewed suspension of hostilities.

Count Andrassy has notified the Servian government that the Austrian consul will quit Belgrade if Prince Milan accepts the royal title.

The war party here mock all allusion to peace. They declare Ristics does nothing except what Russia likes. They even assert that whatever Russia may propose to other powers she is really for war until the Turks are driven from Constantinople. It is idle for Russia to talk of neutrality with a Russian army in Servia. The same correspondent says accounts of operations at the front are confused; both sides claim the victory. They say the Servians are constructing winter quarters. Should the war continue there will be nothing but raids. During the winter field operations must be deferred until spring, when the war party expect Russia will be on the ground for a great campaign which is to bring her to Constantinople.

BERLIN, Sept. 29.—The *Times* quotes a very warlike address to the Czar recently voted by the town council of Nicholaieff which the correspondent says coincides with the intimidation that unless an extended armistice is concluded popular enthusiasm may force the Czar into war.

A Belgrade dispatch reports that the situation continues gloomy and becomes more complicated. The only chance for peace is in Turkey's agreement to the conditions proposed by the powers. If these are agreed to by the Turks, Russia will have an excellent opportunity to vindicate her sincerity. In fact, all the parties in this same diplomacy would then have to show their hands.

Sacrilegious Editor Punished.

PARIS, Sept. 29.—The publisher of the *Tribune*, radical newspaper, has been sentenced to three months imprisonment for insulting religion.

Political Protest.

MADRID, Sept. 29.—Bargelt and Emilio Castelar have protested against the advanced Republican manifesto, signed by Borrilla and Salmoran, Castelar on behalf of a limited republic of united republics. They declare Borrilla's programme, alarming, impracticable and absurd.

Prince Milan Required to Refuse the Royal Title.

VIENNA, Sept. 29.—Count Andrassy has demanded from the Servian agent a written statement positively declaring Prince Milan's refusal to adopt the royal title. General Suwaroff has been instructed by the Czar to obtain a similar distinct renunciation from Prince Milan at Belgrade.

Great Battle Near Teschitzo.

BELGRADE, Sept. 29.—The Servian forces under Generals Tchernayeff and Popavich simultaneously attacked the Turks on Thursday morning and drove them beyond Teschitzo. During the engagement the Servian artillery fired seven caissons of gunpowder in the Turkish ammunition depot. The explosion caused fearful havoc among the Turks. General Harvatovich made a flank movement and occupied the heights in the rear of the Turkish position. It is stated that the Turkish army is now threatened on three sides, namely, General Tchernayeff with the bulk of the Servian army threatens their front, General Popavich their left wing, and General Harvatovich their rear. The fighting lasted until 8 o'clock last night and was resumed this morning.

LONDON, Sept. 30.—The *Standard's* correspondent at Belgrade telegraphs that the battle of Thursday was a glorious victory for the Turks. The Turkish army was all day under fire from the whole line of Servian redoubts and batteries which stretch in a semi-circle of twenty miles and have 100 guns mounted. In the afternoon the Turks assumed the offensive against the Servians, inflicting enormous losses.

Statement from the French Foreign Office.

The *Standard's* Paris dispatch says the following statement was made by the French foreign office to-night in diplomatic circles: No importance is attached to the resignation of Ristick's cabinet here. The Servians' conduct is believed to proceed merely from a desire to influence mediation. The reply of the Porte will be entirely satisfactory to the powers. It will be made official on Sunday, when the powers will summon Servia to fulfill the proposed conditions. The correspondent adds that this statement has not calmed public uneasiness concerning Eastern prospects.

Bank of England.

Amount of bullion withdrawn from Bank of England on balance to-day, £58,000.

"Sands" turns out to be Boss Tweed's Son.

LONDON, Sept. 29.—The *Anglo-American Times* says the man who, at the time of Tweed's departure from Vigo, was stopping at the Hoyt hotel there, under the name of Sands, turns out to be Wm. M. Tweed, Jr.

Arctic Exploration.

The London Admiralty have a letter from Allen Young, commander of the steamer *Pandora*, making a voyage to Smith's Sound to bring to England the dispatches deposited there by the Arctic expedition under Capt Nares, announcing his arrival at Uppernavik 18th July. He reports all well on board and says he would proceed northward July 19th. The winds during summer had been from the south and were therefore not calculated to clear the ice from Melville Sound, but as far as visible from Uppernavik, the sea was clear. There was no news from the Arctic expedition.

The Return of King George to Greece Postponed Indefinitely.

COPENHAGEN, Sept. 29.—It is officially announced that the return of King George to Greece has been indefinitely postponed. The announcement causes great sensation. It is rumored that the King has demanded the cession of Crete to Greece and the ratification of the frontier in Epirus and Thessaly.

Election of Lord Mayor of London.

Sir Thomas White, member of the Board of Aldermen for the ward of Port Saken, was to-day elected Lord Mayor of London. According to general custom, Alderman Thomas Owder, of Bishopsgate, should have been chosen, but the bad state of his health precluded him from taking the office.

End of the Yunnan Affair.

The *Pall Mall Gazette* says a private telegram received in London states that Mr Wade, British minister to China, and the Chinese grand secretary, have signed a protocol, and the Yunnan affair is closed.

THE OTHER SIDE.

BROWNSVILLE, Sept. 19, 1876.

To the Editor of the Oregonian:

In your daily issue of July 25, 1876, appeared an article over the signature of C. H. James, composed of extracts from other papers, and comments by the writer on the action of the Oregon Conference when disposing of the case of Rev. John James. For two or three years this case has appeared in the secular press, in which my name has been used and grossly false statements made in reference to my action. When Mr. James' article appeared in your paper I prepared a reply, but as it involved other matters (which are still pending in the Conference) I withheld my reply intending to wait for the final action of the conference. But as the case of Bro. James is still being agitated and inquiries are coming to me from leading persons (some of them from your city), I ask the use of your columns to make this reply. I shall state the facts, give the references, and leave your readers to judge and note the discrepancies between my statements and those previously made by Mr. James and others.

At the Olympia conference in 1873 I was not Presiding Elder, but was in the cabinet by the courtesy of the presiding Bishop (Peck). In making out the appointments no place could be found for Bro. James. The bishop said, "Poor man, what shall be do with him? He stayed in the California conference till no place could be found for him." After consultation it was agreed that a committee ask Bro. James to locate, and I was appointed as that committee. To this I opposed two objections. First, he was an old man while I was comparatively young; and, second, not being yet announced as Presiding Elder I was not clothed with proper authority. The Bishop would not release me, and Rev. P. M. Starr, then P. E. of Eugene City district, volunteered to take my place. Bro. James refused to locate and was sent back to Dallas (one of our best circuits) as junior preacher, with $100, missionary appropriation. The Bishop then told me to talk to him and tell him of his alleged fault (indolence) and admonish him, and to this I agreed after my official relation was announced.

At his first quarterly meeting I discharged the very unpleasant duty, telling him that his people complained bitterly of his spending his time at stores and the postoffice, neglecting his duties. We talked affectionately and in tears, and he promised to amend. I then told his Sen. minister, (Rev. W. D. Nichols) what he had promised me, telling him to be kind and encourage him, and to write me how he did, all of which Bro. N. promised to do. In a short time Bro. Nichols wrote me that Bro. James had taken a relapse and that the symptoms were more alarming than ever. At his next quarterly meeting, in open conference, Bro James notified me that I must provide for his work as he was going to leave it, and that he never intended to appear in another annual conference again. Rev. N. Lee, of Dallas, and others, hearing this statement, requested me to provide for his work the remainder of the year, which I did.

When Bro. James' name was called at the next annual conference, I stated (an official duty) that he had left his work and what he had said in the quarterly conference, and that this was all that I had heard from him. On hearing this, Rev. J. F. DeVore moved to locate him. This I strenuously opposed, stating that it was unlawful to do so without a trial and the right of defense, and then made the remark that "if I were in a court of equity I would dispose of his case on general principles, but that law required that every man charged have a right of defense." If a judge should see a man steal a horse, and upon that fact commit him to prison, he would meet the equity of the case as fully as if the man had been granted a trial with all the rights of defense, but would violate the law as much as if he had imprisoned an innocent man. I entered my protest and voted against the action as being unlawful, telling the conference at the same time it would cause them trouble. The Bishop then gave me his certificate of location, which I still have, and for the following reasons: After the action of the conference which located Bro James, he accused me of being the cause, and so published it and sent me a copy. From this I feared difficulty, and when taking him his certificate of location took with me Rev. P. M. Starr, who was one of our triers of appeal, as Bro James had given notice in the *P. C. Advocate* of his intention to appeal. The certificate of location was refused, and I left the two ministers talking.

In a few days Rev. P. M. Starr and Rev. J. H. Roork came to my residence near Salem and found me sick and informed me that the Dallas paper had published that I had abused Rev. James in the street, and that Sam. Clarke had copied it into the *Record*, making lengthy and severe comments. I said to Rev. P. M. Starr in the presence of Rev. J. H. Roork, "You were present and heard every word, did I say one unkind word?" To which he answered, "Not one." I then told him that he "ought to have corrected it, as it was his official duty," and he promised to do so, but never did.

I have let these things rest, waiting the action of my conference to bring them to light and vindicate me, and can say no more at present without prejudicing a case now pending, and premature action might be right, but not expedient.

I. D. DRIVER.

Eight years ago the last rail connecting the Union and Central Pacific railroads was laid. On Sept. 5th the last spike was driven in the railroad connecting San Francisco with the lower section of the Southern Pacific. These two events are the pivots on which the railroad history of the Pacific coast turns. While railroad development in other parts of the United States has been utterly paralyzed since the panic of 1873, the Southern Pacific has built 600 miles of trunk line, with important branches, opening a vast and fertile region for settlement and consolidating the trade of the coast at San Francisco.

An attempt was made to burn H. M. Holder's blacksmith shop at Buena Vista on the 25th.

Dastardly Attempt to Fire a Building.

STOCKTON, Sept. 29.—Last night at the Republican meeting at National Hall an attempt was made to fire the building after Mr. Fitch had begun to speak. Some one lit one of the torches, piled up some papers behind the hall door down stairs and laid the lamp down among them. Fortunately, one of the men at the head of the stairs, smelling burning paper, discovered the door and woodwork on fire and succeeded in putting it out without causing a stampede. In a few moments more the stairs which form the only egress would have been in flames and stampede of the 1,500 persons in the hall would have been attended with serious consequences.

Bank Failure.

VALLEJO, Sept. 28.—The Vallejo Savings and Commercial Bank failed to resume business this morning. The suspension is caused by the financial embarrassment of its president, J. B. Frisbee. A statement published by the evening paper shows the bank to be solvent and business will be resumed about the middle of the week.

Trout Creek Homicide.

NEVADA, Sept. 29.—The prosecution rested. The opening statement for the defense was made by C. F. Glashar. B. Cruthers, vice president of the league, was examined. He said nothing unusual occurred on the night of the homicide; no committees were appointed, no volunteers were sent to notify Milford; no speech was made, vacation was taken contemplating an attack on Chinamen; I was about the last to leave; no men remained behind, Thomas Ford, secretary of the league since its organization, remained until the close; made no speech calling for volunteers to notify millmen; the constitution prohibits such measures. Witness denies the statement of McCullough, Getzhell and McClure regarding the league.

Robert Swain corroborated Cruthers and Ford. Hallett Davis explained the objects of the league, and corroborates substantially the previous witness. A. M. Walker met McCullough ten minutes after the league closed in front of Hard's saloon. Adjourned.

Sewing Machines.

SACRAMENTO, Sept. 29.—The gold medal for sewing machines was awarded to the Wheeler & Wilson company by the State fair.

OREGON.

Wheat 70 cents at Salem on the 29th.

The *Empire* from Coos Bay had 23 passengers on her last trip down.

Some one extracted $47 from the pockets of Stephen Bird, of McMinnville, while he was off working.

The editor of the Corvallis *Gazette* treads with greater ease since Dr. Halprunner removed five corns from his "trotters." That's what he says.

Messrs. Laming, Wallace and Martin recently thrashed 1,163 bushels of oats in a day on the farm of Mr D. S. Holman, near McMinnville.

The people of Empire are making arrangements to give a grand ball on the completion of the telegraph line between that place and Roseburg.

The wheat receipts at Kinney Bros.' mill, Salem, during the past week have averaged nearly 5,000 bushels per day, while at the Farmers' warehouse in that city the receipts have been very nearly as large.

There were probably 25,000 bushels in the warehouses at North Yamhill on Monday last, and grain was rushing in very rapidly. Considerable wheat was sold at 67 cents, and when the price rose to 73 cents, a day or two ago, 7,000 bushels were sold in a single day.

Says the Empire *News*: The construction of a telegraph line from this bay to Roseburg, has been commenced under the auspices of the Western Union Telegraph Company, and it is expected that the line will be in operation about the 1st of November. Business men and citizens of Coos Bay have guaranteed to the company a bonus of $4,000, to be paid when the line is in operation. The principal offices of Coos county will be at Marshfield and at Empire City, with a testing station, and possibly a regular office, at Coos City. The line is to cross Isthmus slough by a submarine cable at Coos City, and from that point follow the Coos Bay wagon road to Roseburg.

The first shipment of hops to San Francisco from Washington Territory this season was sent down on the *Panama* on her last trip, consisting of 200 bales, shipped from Tacoma by Avery & Ryan.

WASHINGTON COUNTY FAIR.

Fourth and Fifth Days.

HILLSBORO, Sept. 29, 1876.

Our obliging conductor of the special train tells me that he lost or mislaid my letter of yesterday, and it did not occur to him to inform me by telegraph so I could have sent you what few items of special interest there were by that means. The loss, however, is no great one, as the proceedings of yesterday were rather dull. The attendance was quite slim, and only exceeded that of to-day, which is growing small by degrees. The appearance of Wednesday was totally deceptive, as the crowd seems to have been principally drawn here to see the big circus, and none of them have been back since. A number of yesterday's visitors avowed the same object in their attendance but were disappointed. One or two went to Portland to see the performance, and well they might, for it would repay them the expense in the satisfaction of not having entirely lost the day.

A FLUTTER,

Among a certain class was raised by the arrest of three prominent Portland sharpers on a charge of larceny, by getting $25 away from a citizen in some trick that was vain in a way that was dark. One of them was convicted and paid a fine of $25 and the costs; one was acquitted through a technicality, and the third was discharged. The moral effect was disastrous to the profession, as many who might have been victims were kept out of their clutches, and they were obliged to operate very cautiously on what prey they did pick up. The officers are now looking for the man who got a watch and $60 from a mechanic at Hillsboro.

RIFLE SHOOTING

Did not seem to excite as much interest here as it does in the East, but a number of experts and amateurs went out into the woods to witness the match. The result was that our old time champion, J. A. Flippin, who has carried off the prize for nine years, has yielded up his position. Our County Commissioner, Thomas Tucker, carried off the honors, S. M. Ingram being second and James Wallace third. When we see that Washington county has the Centennial medal, and the man who beat the winner at that match without entering for the prize, and that neither of them are the best shots at home, I think the county can be proud of her marksmen.

The trot of Wednesday in which Scoggins' horse went one heat after being injured in a runaway and was then withdrawn, was decided yesterday by the full board in favor of Joe Taylor's horse, and the pools went accordingly.

The race yesterday ½ mile and repeat was won by J. H. Boemer's Billy Nuts, beating Scoggins' Maggie Burton in two easy heats.

TO-DAY'S RACING

Has been of a better quality. The first was a purse for two-year-olds, half-mile heats, in which T. B. Hoover named s. g. Olo, Wm. Fument named s. m. Emma Thayer, and Westfall, g. g. Winoosh. At the first trial the colts got away in bad order, Olo ahead, the gray a bad second and the other sorrel bucking until she lost ten rods, after which she straightened out and ran her level best to save her distance, Olo and the gray contending closely all the way for the heat. On the home-stretch the gray's rider pulled him on the hard outside track, when he flinched and made a tremendous leap sideways, by which maneuver he lost ten feet and came under the string that far behind Olo, who took the heat in 0.57½. The second heat was not accomplished without a great deal of trouble in starting, in which Emma made two or three dashes of a quarter by herself. At length they got away very nicely, but the gray was evidently suffering from his jump on the hard ground and went to the bad very rapidly. The two sorrels came home lapped all the way, Olo winning the heat and race in 0.56½. These colts are all first-class animals, and, unless some accident happens, will be heard from in the future. Immediately after this race the horses were called up for the

$500 RACE,

Two mile heats, free to all, Wm. White natued b. g. Ophir, Wm. Tennant named s. h. Tom Merry. Both these animals are too well known to your readers to require any further notice than that they were in splendid condition, and either looked able to win if he run fast enough. The first heat was soon started in excellent style, Tom taking the lead and drawing ahead gradually under a heavy pull. He made the first half in 0:55, the first mile in 1:53½, the mile and a half in 2:50 and won the heat easily in 3:48½. On the home stretch Ophir's rider used his whip freely the first mile, but failing to close up the gap, seemed after that, to be content with saving his second. As there is no probability of the next heat being run before the train leaves, I shall send the result by telegraph.

During the entire day articles have been removed from the pavilion, stock from the stalls, by special permission, and now everyone on the grounds are in a rush to get away as soon as the race is over.

The secretary is thronged by applicants for orders for premiums, and the treasurer is being teased to death by those who, living at a distance, wish their premiums paid in advance of others, and before the main body of orders are drawn.

I have been unable to obtain figures for receipts, but the best estimate is that the gate receipts will fall a little short of $2,000, licenses about $1,500, entries and all other sources $2,500, which will not pay expenses. Still Washington county is alive, and next fall her agricultural society will try harder than ever to have a good fair.

One drawback this season has been a blunder in arranging for exhibitions of horse flesh. The purse for two-mile heats, free for all, was first made $200, but printed in the bills $400. This was corrected and reduced to $200, and then a few days ago the Society changed the purse to $400 for first and $100 for second money. This was done too late to draw as many good horses as ought to have been on hand, and nothing but good horses will draw the people of Oregon.

People are divided as to the merits and demerits of horse-racing, but there can be but one opinion of the popularity of that amusement. Those who go to fairs to spend money want to see good shows and good races, and the management that wishes to pay expenses must cater to that wish; any other course fails to be self sustaining.

The train is off, and Tom Merry won the race in 3.48.

SALES OF THOROUGHBRED MERINOS.—On September 25th, Messrs. John Minto and T. L. Davidson, and F. R. Smith, made sale of twenty-seven thoroughbred Merino rams to J. Graham Heweson of Umatilla county. Mr. Heweson is recently from Newcastle-upon-Tyne, England, and in partnership with a gentleman from Dumfriesshire, Scotland, is commencing the establishment of a wool-growing enterprise near Heppner. They have purchased 1,606 head of selected high grade Merino ewes from the flock of Judge Waldron of Dalles City. The Merino flocks of Minto and Davidson was the original source of improvement of the Waldron flock, then belonging to Messrs. Nye & Waldron, and it is complimentary to Oregon breeders that these flocks are sought again as a source of further advancement. There is another incident of interest in this transaction. Mr Minto is also from Newcastle upon Tyne, was a coal miner by occupation, a ll thirty two years ago transferred his *labor*, and his labor only, to Oregon. Mr Heweson, now comes from the same place, with his capital to invest. The transaction we note, illustrates the truth that labor precedes capital, and capital is the reward of enterprising labor.

From the Benton *Democrat*: Mr. Henry Eliott brought into our office a bunch of wheat that for length of head and size of kernel excels anything we ever saw. It is of the variety commonly known as "Goose wheat," and the heads average over six inches in length and the kernel is over half an inch long and large in proportion. This wheat was raised in the coast range of mountains, well towards the head of the South Fork of Mary's river, and shows that these mountains are no less productive than the valleys.

OREGON LEGISLATURE.

NINTH BIENNIAL SESSION.

Senate.

SALEM, Sept. 29, 1876.

The Senate met at 10 A. M. and was called to order by the President. Roll called and quorum found present. Prayer was offered by Rev. H. P. Peck, of the Presbyterian church. Journal of yesterday read and approved.

REPORTS OF STANDING COMMITTEES.

The committee on judiciary reported back S. B. 20, to amend title 1 chapter 31 miscellaneous laws, with amendments recommending passage; S. B. 18, to provide times and places of holding supreme and circuit courts, with amendments, recommending passage, which bill was afterwards recommitted for further amendments; S. B. 22, to create a sixth judicial district and increase the number of supreme judges, with amendments, recommending passage.

The committee on claims reported back S. B. 32 as a substitute for S. B. 67, which substitute they recommended should pass. This bill appoints C. M. Carter and B. F. Dowell as war claim commissioners.

The committee on printing reported back S. B. 63, to repeal section 8 of an act to provide for the public printing and distribution of the laws and journal with favorable recommendation.

The committee on counties reported S. B. 46, to amend an act to prevent swine from running at large in certain counties in this State, with favorable recommendation.

The committee on engrossment reported S. Bs. 5, 33, 38 and 87 properly engrossed.

VanCleave, from committee on judiciary, presented an adverse minority report on S. B. 9, to appoint a board of canal commissioners.

The committee on corporations reported favorably on S. B. 61, to amend an act to incorporate the city of The Dalles, and recommended its passage.

Grant, from the special joint committee on penitentiary, reported favorable consideration of S. B. 6, with amendments, providing for the lease of the State penitentiary and convict labor.

The committee on mileage reported in case of Warren, who had not taken his seat when they made their first report.

The joint committee appointed to visit the State University at Eugene City, submitted the following report:

SENATE CHAMBER, Sept. 28, 1876.

Mr. President: The joint committee appointed to visit the State University, at Eugene City, having discharged that duty, now ask leave to make the following report: They found a substantial brick structure, of good material, of the following dimensions: one hundred and fourteen feet long, by fifty-six feet in width; a good strong stone foundation, two stories high, with a basement story twelve feet in the clear, and the two stories above sixteen feet in the clear, with a Mansard roof forming a third story eighteen feet in the clear; all the work done in a good, workmanlike manner. The lower story is now completed and ready to receive the furniture, which, your committee is creditably informed, is in course of preparation, and will be in its place by or before the 18th day of October next; and your committee would further state that the university has been fully organized by the election of Hon. M. P. Deady, president of the board of regents, and such other officers as required by law; that such board have selected a corps of teachers composed as follows: Prof. J. W. Johnson, president; Prof. [illegible] Bailey and Condon, subordinate members of the Faculty; Mrs. Spiller, principal of the preparatory department, and Miss Mary E. Stone, assistant, and designated the 18th day of Oct. next for the commencement of the first school year of the university. Your committee would further state that the expenses incurred in the construction of said building and the purchase of the site have been paid by the voluntary contributions of the citizens of Lane county, and, in the judgment of your committee, founded on the appearance of the building and the best information that could be obtained, the same is at least of the value required by the law locating the State University, to wit., $50,000. Your committee would further say that, from reliable information, the title to the grounds upon which the building is located is perfect, the grounds consisting of a fraction less than eight [illegible] acres, beautifully located, just outside the limits of Eugene City, Lane county, Oregon; and your committee would recommend that a small appropriation be made by the present legislative assembly to complete the unfinished parts of the building and improve the grounds belonging to the same.

R. B. COCHRAN, Senate Com.

Report adopted and 300 copies ordered printed.

Offield moved that the Senate resolve itself into a committee of the whole to take into consideration certain bills. Lost.

S. B. 20, to amend sections 5, 7, 22 and 23 of chapter 7 of miscellaneous laws of the State relating to corporations; passed.

The hour having arrived for the special order of business, the Senate resolved itself into committee of the whole to take into consideration S. J. R. 7, for the appointment of a joint committee to take into consideration the regulation of fares and freights in the Willamette valley, Richardson, of Marion, being in the chair. After a three hours' session the committee rose and reported progress.

Bradshaw and Bentley were granted leave of absence.

Adjourned until Monday, 2 P. M.

House.

House met at the usual hour, the Speaker in the chair. The roll was called; 57 members present, absent 3. Prayer was offered by Rev. Mr. Tower, of Salem. The journal of yesterday was read and approved.

H. B. 14, relating to duties of district attorneys, was read a third time, and on motion of Gilbert was indefinitely postponed.

H. B. 22, to authorize the United States to condemn and appropriate private property in this State for public uses, was read a third time and passed. [This bill has special reference to the securing of the right of way for the proposed canal and locks at the Cascades.—REP.]

H. B. 32, to amend section 50, chap. 57, title 5, of the miscellaneous laws relating to the levy of taxes, providing that "for the purpose of raising a revenue for county purposes, the county court of each county shall, at its term in September of each year, levy a tax on all property in its county, which tax shall be sufficient in amount to defray the expenses of the county and all outstanding county indebtedness;" read a third time and recommitted to the committee on ways and means.

The committee on engrossed bills reported House bills Nos. 15, 28, 34 and 30 properly engrossed.

The House took S. J. R. No. 10, relating to the employment of an expert on printing from the table and concurred therein.

INTRODUCTION OF BILLS.

The following bills were introduced, read a first time and ordered printed:

By Roberts—H. B. 88, to repeal sections 1, 2, 3, 4, 5, and 6 of chapter 24 miscellaneous laws relating to foreign corporations doing business in the State.

Wilson—H. B. 89, to amend the law relating to certain contracts for labor.

Mosier—H. B. 90, to provide for the donation of the mint building at The Dalles, and the lot on which the same stands, to the county of Wasco.

Mosier—H. B. 91, appropriating $185 for relief of James A. Campbell for taking care of the mint building at The Dalles. Not printed.

LEGISLATIVE NOTES.

AND NOTES NOT STRICTLY SO BUT [illegible] THERETO.

[FROM OUR SPECIAL CORRESPONDENT.]

SALEM, Sept. 29, 1876.

The two houses have at last [illegible] into a state of activity, and [illegible] the [illegible] important [illegible] in the way of law-making which it is presumed will engage their attention before the close of the session have not yet been prominently presented, there is a great amount of small business on the clerks' tables which is being cleared up and the legislative mill being regulated for the larger grists to be ground through hereafter.

TAXATION OF CHURCH PROPERTY.

This question came up in the lower house of the legislature yesterday, and gave rise to quite a lengthy discussion in which all the leading talkers took an active part. H. B. 55 was read a second time and the [illegible] was on propositions to [illegible] it in [illegible] particulars. The bill is a substitute [illegible] by the judiciary committee for H. B. 1, and defines what property shall be exempt from taxation, changing the existing law only in striking out the subdivision which exempts $300 worth of personal property belonging to every householder. Chambers, of [illegible], moved to amend by a provision taxing all church property owned by any one society in excess of $10,000. This would affect not more than three churches in the whole State, at present, but we are glad that the House was able to see the impolitic and unwise features of the amendment and voted it down. The bill as it stands will probably [illegible] the only change [illegible] in the [illegible] as heretofore that before alluded to, viz: striking out the $300 exemption clause.

THE DEAF MUTES.

In accordance with the arrangement made for the pupils in the deaf mute school and the patrons of the [illegible] to [illegible] the joint convention of the two houses, the Senate [illegible] at 4 o'clock yesterday afternoon and the two houses assembled in the representative hall, and was called to order by the president. A large number of [illegible] had already collected, and in a few moments the school [illegible] by Rev. Mr. [illegible] the principal, and Mrs [illegible] the [illegible] of the school. The pupils in this [illegible] 18 at [illegible] during the past [illegible] have not yet returned from the [illegible]. The children [illegible] young [illegible] and [illegible] full grown, down to children of [illegible] or eight years, are as intelligent and [illegible] as any equal number of children one [illegible] sees together anywhere. They also presented every indication of health, and though [illegible] of them have the [illegible] of this [illegible] all [illegible] and quick to obey the directions of [illegible] teacher. Mr. Knight is [illegible] by a young man whose name we did not learn, and Miss Watkins of Baker county, both [illegible] mutes, but who are proficient in the branches taught and perform their duties with all the [illegible] of old [illegible]. Miss Watkins is a young lady more than ordinarily handsome and graceful every way, and though her [illegible] has all [illegible] in this school, she [illegible] to be [illegible] skilled in the knowledge so difficult to be acquired by those around whose [illegible] such a great barrier has [illegible]. All the children in fact who were examined on this occasion exhibited a degree of proficiency reflecting great credit on the labors and [illegible] of those who have had them under their [illegible]. A variety of exercises was given such as writing such words as were given by the audience, [illegible] of [illegible] and [illegible] by signs, pantomimic recitations of [illegible], poems, etc. The entire audience was pleased and interested by the exercises, and expressed their approval by frequent applause.

THE WOMAN SUFFRAGISTS

Are quite persistent in their attacks on this body, and as the House tabled a motion to allow the champions of the [illegible] to argue the question of woman's right to the ballot before the House, [illegible] the [illegible] invite the members to Reed's Opera House [illegible] evening and give them the views of the suffrage party in pretty large doses. These [illegible] are as respectable as any in the land and are [illegible] in their cause, [illegible] we may believe that their "zeal [illegible]," we cannot [illegible] in the [illegible] of [illegible] journalism [illegible] slighting [illegible] which are [illegible] found in certain newspapers of the State in regard to the movement. Some of these articles are evidently not intended by their authors to be read in the best families.

The funniest reading extant just now is the regulation style of comment on the Maine election adopted by the Democratic editors. They say the Republican majority ought to have been 18,000. What an idea they have of the whipping they deserve!—*Boston Journal.*

SATURDAY MORNING SEPT 30 1876

SENATOR VANCLEAVE'S REGISTRATION BILL

Two years ago a law providing for the registration of voters was presented in the legislature and if we recollect right it passed one house and failed in the other from want of time the adjournment taking place before it was reached Senator VanCleave, who was an advocate of the measure at that time has brought the subject again before the legislature in a bill substantially the same as the one then presented It is carefully drawn and if enacted into a law will prove a complete antidote for the ordinary forms of election frauds In our system of government so much depends upon the purity of the ballot, that every fair minded person whether in the majority or in the minority will be glad to see every possible barrier raised against corruption in the elections It is a crime of far greater magnitude considering its consequences to our civil institutions, than any other species of fraud or corruption The corruption of an officer corrupts only that part of the civil administration which is under his charge the corruption of the ballot box corrupts the fountain head of all our institutions and every branch of public service And this is a species of corruption which, unless strictly guarded against, will occur more frequently than any other The temptation of election, and the difficulty of bringing offenders to justice, make the offense common Besides many persons with strong partisan feelings, find it possible to justify themselves to their own consciences in such fraudulent practices as may, in their opinions, save the country from the calamity of electing the adverse party's candidates to office Thus the arguments of self-interest are often powerfully supported by political fanaticism The way to prevent all this, and the only way, is to hedge the elections about with legal safeguards till fraudulent voting is impossible This is the theory upon which registration laws proceed, and it is the correct theory Mr VanCleave's bill goes fairly to the root of the matter It provides against all those forms of fraud which have been common in our elections in this State, and its enforcement involves but trifling expense. It should pass There ought to be no opposition to it If it has defects they should be pointed out and corrected, but it is right in principle and the end at which it aims is one which every citizen should desire to see attained

SENATE BILL 31

Senate Bill No 31, to provide for keeping the insane, has one good point in it—that of making the several counties responsible to the State for the cost of keeping their insane That should be the law. The State ought in the first instance to pay the contractor for his services, and then the counties should reimburse the State at their annual settlements That would secure equality which is always equity. The present system produces inequality which is never equity So much can be said in favor of the bill

But there is another side The bill referred to provides for a commission of three persons, two physicians and one lawyer, in each county, who are to be called together by the county judge whenever there is application to him for an adjudication of insanity, and these three persons are to examine into the matter and determine the question of sanity or insanity, and if they find the person under investigation is insane, the judge is to cause him to be conveyed to the asylum, or "cared for in any other manner said judge may consider best for the person and for the interest of the county, if indigent, as other county poor are provided for" The advantage to be gained by this complex scheme of a commission of three persons to decide the question of sanity or insanity, instead of having it determined as at present, by the county judge, with the aid of one or more competent physicians is not apparent Two doctors and a lawyer are no more capable of settling the question properly than one doctor and one lawyer under the present simple mode of proceeding. But this objection to the bill is less serious than the next, to which we shall allude pr[illegible]nce there is not a great deal of ex[illegible] iding and it can do no great harm

The clause leaving it to the county judge to determine whether the patient adjudged insane is to be sent to the asylum or "cared for" in "some other manner" is essentially vicious How long would it be, under that system, before the insane of nearly every county of the State would be farmed out to persons entirely unprepared for their keeping and without qualification for their treatment? This provision would be productive of evil and evil only. This unfortunate class now taken care of as well as extensive preparation and the highest professional skill can take care of them, would soon have to add to their misfortunes the further calamity of being made the capital stock for a large amount of small trading in the several counties, and the county judges would find themselves beset by all sorts of people in the interest of the patients or those who sought jobs of keeping them

LOUISIANA

The dispatch published yesterday mentioned as a "curious" fact that it was contemplated among the conservative or Democratic politicians of Louisiana to work up a combination for the election of the Republican candidates for President and Vice President and the Democratic candidate for Governor There is nothing particularly "curious" in this plan The Southern people do not want any more war, and those of them who have sufficient sobriety of judgment to comprehend the true situation of affairs know that there is great danger of further disturbances in that section in the event of Tilden's election The disorderly classes down there, who have been to some extent held in check by the Federal government, would consider themselves licensed to carry their violent proceedings to any length, and it would require all the resources of the well disposed to keep them in restraint But the election of Hayes would be a continuation of the anti color line policy but with a firmer hand and less spasmodic efforts probably than hitherto People who desire good order in community can hardly expect their wishes to be realized in the South if Tilden should be elected President

On the other hand the Democrats of Louisiana naturally want a Democrat for their local governor And besides that, Packard, the Republican candidate, has been for a long time one of the most active and offensive of the infamous carpet bag ring of Louisiana Whether he is really as bad as the reports of the last few years would lead one to believe him to be or whether those reports have been colored and unfair we cannot pretend to say Assuming them or the half of them to be true he ought to be defeated He was charged with prostituting his office of U S Marshal for the State to the purposes of the carpet bag ring, to an extent which should make every man who had any thing to do with that department of the public service ashamed to hear the name of Packard mentioned Property and personal liberty, and even life itself, was regarded as a trifling thing, if reports are true, compared with the success of his party. We have no information as to Nicol, the Democratic candidate, further than such as we have been able to glean from the press since his nomination, but it is safe to assume that he is a better man for governor than long received reports make out Packard to be. He could not conveniently be worse

OREGON FRUIT IN BOSTON

A few days ago Mr Paul Schultze sent two boxes of prunes to Mr Villard in Boston Yesterday Mr Schultze received a telegram from Mr Villard stating that the fruit had reached Boston in perfect condition This latter fact is important, as indicating that should prices justify the enterprise it would be quite possible to send fruit of that kind to Eastern markets It seems that Mr Villard consulted some fruit dealers in Boston to ascertain what prices could be procured for prunes in that city and he was informed that they would sell for two or three dollars a hundred whole sale but the fruit dealers intimated that none would be received for sale except on commission We have not sufficient facts to enable us to say whether two or three cents apiece for prunes would be enough to justify owners in sending their fruits so far but experienced men can easily calculate and ascertain for themselves

A telegram was received from Mr Dufur yesterday stating that the twenty three boxes of fruit shipped to him to be put on exhibition in the Centennial exposition, have arrived in good condition and the fruit is now on exhibition Another shipment, which will be the last one is now being prepared and will go off on the next steamer The expense of shipping fruit has been considerable and in consequence of the slight aid given by the legislature, the shipping committee are obliged to ask further contributions from the public before the last shipment can be made We trust the public will respond

Mr. George's bill to amend the election law so as to require the clerks of election to write on the back of the ballot of any person who swears in his vote under challenge the name of such voter is a grand measure The only possible objection to it is that it in some measure destroys the secrecy of the ballot, and that objection ought to have but little weight since there are comparatively few persons to be affected by it, and it will greatly facilitate investigations of the votes in contested election cases

The following news has not yet been received

ALBANY N Y Sept 30 1876

Mr Tilden is busily engaged in preparing a statement to be issued immediately after Boss Tweed's check book stubs shall have been found and published It will explain that the money received by him from Tweed was bestowed in charity and was not regarded by Mr Tilden as forming part of his income

Senator Cochran of Lane county has a bill before the legislature to repeal the law providing for the publication of the laws of the State in a newspaper It should pass Such a publication of the laws is a needless expenditure of the public money

RUPTURE!

No More Metallic Trusses Used!

No More Suffering from Iron Hoops or Steel Springs!

THE SUPERIORITY OF OUR ELASTIC Trusses over the rigid Iron Hoops which in former days were the only resource of the ruptured adults is NO ARGUMENT

By means of this appliance the pressure on the Rupture itself can be made uniform and continuous and to the extent required in each case until a slight inflammation of the parts is secured and the consequent effusion of lymph which is essential to a healing process and from this time to the conclusion of the treatment the pressure being entirely within the control of the patient can be lessened daily as the adhesion progresses and the body becomes sound All cases of reducible Hernia are permanently relieved without regard to the age of the patient or the duration of the injury while in its action it is wholly free from all the cruelty that has characterized the treatment of the malady with tortuous Metal Trusses from the earliest age to the present day Your attention is called to the following facts

1st—There are no springs to press upon or to injure the back

2d—It is simple in construction and not liable to get out of order

3d—This instrument is worn with perfect ease while riding horseback

4th—The Rupture is retained and the pressure the same while in any position

5th—It has none of the injurious results of metallic Trusses

6th—It will perform radical cures when all others fail

7th—It is worn with ease and comfort night and day which cannot be said truthfully of any metal Truss whatever

Experience shows that all tempered spring Trusses necessarily press upon and often disease parts of the body that before were in a perfectly healthy condition Lumbago and other equally distressing ailments are not unfrequently the outgrowth of such pressure and in view of this fact it becomes a matter of decided consequence to avoid like calamities if possible

Examination Free The closest scrutiny of physicians solicited

AMUSEMENTS.

The Circus.—A matinee performance was [illegible] yesterday afternoon which drew out a [illegible] crowd, and last evening the immense pavilion was literally jammed With [illegible] there must have been present [illegible] 4000 persons The performance [illegible] was superior to the one given on the [illegible] night. During the evening, several [illegible] were introduced The lateness of the hour precludes particular mention of [illegible] individual performers but suffice it to say that the Portland public has never in the history of the city been afforded such an exhibition as that furnished by Montgomery Queen's [illegible] Mr. Queen has brought to this State a [illegible] combination at an immense outlay of money, and the public are not slow in [illegible] his great enterprise as a caterer and the very superior excellence of his company. By all means do not fail to witness the best circus performance ever given in this city. Only two more opportunities afforded [illegible] A matinee performance at 2 o clock this [illegible] and the last exhibition this evening.

BRIEF NOTES.

Washington county fair over

Glorious weather for farmers

And still Portland has no assessor

The schooner Hera is loading for San Francisco

The legislature is dragging its slow length along

Next Monday one week and the State fair will open

Blackberries are still lingering lovingly in the market

Hon Henry Warren of Yamhill, was in the city yesterday

The French bark Fee Irene is to have a new coat of paint on her hull

How much longer shall we swelter is the most popular conundrum just now

The foliage of the mountain maple is delicately tinted with scarlet and golden hues

The circus has come and the cup of the average boy's happiness is filled to overflowing

Many are taking time by the traditional forelock and laying in the supply of winter fuel

The circus gave two performances yesterday—matinee and evening Two will be given again to day

LaChapelle's new residence on the water promises to be a nobby and unique affair when completed

The ice season has slightly revived since mercury has shown such a disposition to climb the glass tube.

Within the next three or four weeks a number of the large new brick buildings will be finished and ready for occupancy

The O S N Co's and O S S Co's docks remind one of whited sepulchres since the brush of the kalsominer has been over them

Weather prophets are predicting that the prospects of the State Fair will be dampened by rain Why not look on the bright side of things

The signal gun of the steamer will cause many a sleeper to start from his or her drowsy pillow this morning She will be off at 6 o'clock

Ladies and little people will remember the matinee performance this afternoon A capital opportunity to witness the performance and see the wild animals

Yesterday was the last day on which papers could be filed in the county clerk's office instituting suits to come before the October term of the State circuit court

SUICIDE BY DROWNING.

An unknown man committed suicide last evening about 5 30 o clock by leaping into the river from the O S N Co.'s barge Autocrat At the hour mentioned a young man tolerably well dressed aged apparently about 22 years was observed to step on board the barge and walk toward the stern He did not speak a word to any one on the craft, but walked aft A moment later the young stranger was seen to pass through the doorway at the rear end of the boat and deliberately leap head first into the water A gentleman who witnessed the act from the wharf shouted to the person and asked him if he intended to drown himself or if he only proposed to take a swim The stranger made no response to the question, but tucked his head under the water apparently for the object of drowning himself An alarm was given and several persons about the barge rushed to the assistance of the drowning person A rope was thrown to him but he made no particular effort to grasp it—the end falling several feet short of him Again the rope was cast to the stranger, but the person throwing it became excited, and let go the end By this time the person seemed to have changed his mind on the subject of suicide and appeared anxious to be rescued Just before the rope was thrown to him the last time, he sung out the word "Hurry," immediately after which he sunk from sight. A rope and grappling irons were sent for and in about 20 minutes the body of the unfortunate young man was recovered It was brought to the foot of Stark street and Dr Wilson summoned A large crowd collected and every effort known to medical skill was made to resuscitate the man but all to no purpose, and after working with him for some time further attempts to bring him to life were abandoned The body was taken to the undertakers where an inquest will be held this forenoon The unfortunate suicide appears to be a "stranger in a strange land" for thus far not a single person seems to know about who he is

BUSINESS NOTICES.

Kilbourn's regular sale this day at 11 o clock

The attention of the ladies is called to the advertisement of P Van Fridagh

Everding & Beebe's new card appears in these columns to day The firm do a large business and merchants may expect the best terms at this house

Smith Bros machinists, announce that they have resumed business on South Front street in the brick building formerly occupied by the Oregon Iron Works They do their work promptly and well

Mr Chas Fishel of Fishel & Roberts is a passenger on the outgoing steamer It is the intention of that gentleman to purchase a large and complete line of goods for delivery in this city about the time of the opening of their new and elegant store In the meantime they will continue to sell goods at the old corner at awful low prices Profits are no object, because they mean to clean out the present stock if they have to give it away What do you think of that?

BARN AND DWELLING DESTROYED.

We learn from Dr Waterhouse that on Thursday evening between 6 and 7 o clock the large residence of Mrs Beebe, at Monmouth, was totally consumed by fire It is not known how the fire started but is supposed to be from a defective flue or from sparks from the chimney The house was next to the best one in the town and burned so rapidly that in thirty minutes it was entirely consumed Its value was about $6 000 and it is said to have been insured Most of the furniture was saved in a damaged condition from necessarily rough handling

Thursday evening the barn belonging to Mr Marion Seller, of Polk county took fire and the building together with the contents entirely destroyed The building and contents were insured in the North British and Mercantile Insurance Company for $800 Mr Ed Hall received a dispatch from Salem yesterday morning apprising him of the loss To day he will go to Polk county to adjust the loss

Allied Enemies to Health.

In many of the forest and most fertile districts of North and Tropical America air and water are allied enemies to health both being impregnated with the poisonous miasma which produces chills and fever bilious remittents and febrile disorders of a still more malignant type Fortunately a sure preventive and curative of such destructive maladies is to be found in Hostetter's Stomach Bitters a vegetable preparation which is infinitely to be preferred both on account of its efficacy and freedom from all hurtful properties to the deleterious mineral and alkaloid remedies of the pharmacopoeia. It is moreover, the reigning specific for dyspepsia debility constipation urinary troubles, rheumatism and nervousness, promotes appetite and sleep and is a capital antidote to depression of spirits.

CYRUS NOBLE DISTILLERY, 1st Dist., O.

CINCINNATI April 1 1876

Messrs, LILIENTHAL & Co

Gentlemen—I have just returned from a trip through Kentucky Ohio and West Virginia undertaken for the purpose of examining the various distilleries in those districts and I am now more than ever confirmed in the opinion, so often expressed to you that your distillery is the most complete and best conducted of any in the United States

The careful selection of your grain, the purity of the water the slower and more cautious method of distillation is what gives the NOBLE WHISKY its superior qualities, and has gained for it the reputation which it universally sustains throughout the United States

Gratified that the 20 years devoted to the distillation of the CYRUS NOBLE WHISKY, has been attended with such happy results, I trust I may be spared to continue my labors in its interest, and that of its many patrons and consumers

I am, Gentlemen,
Yours faithfully,
CYRUS NOBLE.

To the Public.—The great reputation which our Cyrus Noble Whisky has enjoyed in medical practice throughout the Eastern States and Europe for a period of nearly 25 years, prompts us to bring it to the notice of the Public of the Pacific Coast for similar use

Its absolute purity, having by analysis been found to be entirely free from FUSEL OIL, and the improved quality imparted to it by its being retained in store for at least from 5 to 6 years after distillation, has given to the Physician a remedy long sought for in his own Materia Medica

The certificates we hold of its efficacious use in the treatment of cases where NERVOUS PROSTRATION exists and vitality is at a low ebb, as is frequently observed in fevers endemic to our country, of DYSPEPSIA, with its whole train of gastric troubles, of diseases of the LIVER and the BLADDER, of CONSUMPTION, affording effective and ready relief to the afflicted victim and of putrescent diseases or blood poisoning resulting in its use as a disinfectant the sufferer from premature death are all highly gratifying to us, and we believe we owe it to our numerous patrons on the coast to use every endeavor to introduce it here

Very respectfully,
LILIENTHAL & CO

The Daily Oregonian.

SATURDAY MORNING, SEPT. 30, 1876.

WHEN WE ARE PARTED.

When we are parted let me lie
In some far corner of thy heart,
Silent and from the world apart,
Like a forgotten melody,
Forgotten by the world beside,
Cherished by one and one alone,
For some loved memory of its own
So let me in thy heart abide
When we are parted keep for me
The sacred stillness of the night
That hour sweet love is mine by right
Let others claim thy day of thee.
The cold world sleeping at thy feet,
My spirit shall discourse with thine,
When stars upon thy pillow shine,
At thy heart's door I stand and wait.

SALT FOR DAIRY PURPOSES.

GOOD SALT INDISPENSABLE IN BUTTER MAKING

SPLASH, Yakima Co., W. T., Sept. 16

TO THE EDITOR OF THE OREGONIAN:

Every week or two the papers of Oregon and Washington Territory publish articles on butter making; the sum and substance of them all being that our butter-makers as a class are very untidy, and I then quote from X. A. Willard. Hardly a farmer in Oregon or Washington Territory but at some time has felt sure his fortune laid in the direction of butter or cheese making, and the majority have failed to produce an article that would keep—nice and sweet when new, but rancid in less than a month. With your leave, I will quote Willard to show that something more than neatness in butter making is required. As to the kind of salt to be used, Willard says (p. 451 of his Practical Dairy Husbandry): "Much has been said and written about salt for dairy purposes. The subject is by no means exhausted. It at least demands discussion and agitation, so long as dairy products continue to be injured and spoiled by the use of an impure article. I have [illegible] both in butter and cheese on account of using poor salt, and I have no confidence in the common article to be met with in the market. The risk never should be taken of using it in butter and cheese. The dealers and [illegible] in butter have for years cautioned the butter-makers to use nothing but the best Ashton or Liverpool salt. Chlorides of calcium and magnesium are the substances in salt which affect the taste and injure the quality of butter, however carefully otherwise it may be made." The Ashton is a very good salt, but expensive. All the salt sold as Ashton is not genuine. Cheese and butter-makers should buy of reliable dealers only; men who know where they obtain their goods and can vouch for their quality. The analysis of the Factory Filled or Dairy salt, manufactured at the Onondaga Co.'s salt works, Syracuse, New York, exhibits greater purity than the Ashton and other foreign [illegible]. At the New York State Fair in 1867 was a large exhibition of butter from different parts of the State, and among the packages were a number of samples half of which was salted with Onondaga and half with Ashton salt. The committee of experts pronounced in twenty-five cases the butter cured with Onondaga salt to be the best, as compared with alternate packages cured with Ashton. S. W. Johnson, professor in Yale College, states that the purest salt made is this or any other country came from Syracuse. Gov. Alvord, of Syracuse, stated at a meeting of the American Dairy Association that the Onondaga Salt Company were prepared to guarantee their factory filled salt and to pay for any parcel of butter or cheese that was injured by the use of it; but the salt must come from the [illegible].

I [illegible] to these facts because I know the genuine article to be good, and as it is further [illegible] much cheaper than the foreign or imported salt, it is of interest for dairymen to know it. The Onondaga Co.'s factory filled salt is sold by the single barrel, according to [illegible] by reliable dealers furnishing goods in Utica, N. Y., for less than one cent per pound [illegible]. Portland merchants might put a few tons aboard one of the vessels that come from New York, and give us an equal show with dairymen elsewhere.

G. H. DAIRYMAN.

[illegible] TERRITORY

The new hall of the Unitarian Society of Olympia is completed. It has cost $3,000.

The election for delegate and Territorial officers for Washington Territory will take place November 7th.

A [illegible] from Oregon, was robbed of $85 and a pistol on the 25th. The perpetrator made good his escape.

Three families of Kansas emigrants arrived in Vancouver last week. They design settling permanently in this county.

At the ninth annual communication of the Grand Lodge of Masons, held at Olympia Sept. 28th and 29th, the following grand officers were elected for the ensuing year: Grand Master, Pratt A. Preston, of Walla Walla; Deputy Grand Master, R. C. Hill, of Whidby Island; S. G. Warden, B. S. Miller, of Port Gamble; J. G. W., H. W. Fairweather, of Kalama; Treasurer, Benj. Harned, of Olympia; G. Secretary, Thomas M. Reed, of Olympia.

Liverpool Grain Circular.

[illegible] Sept. 29.—The [illegible] grain circular says [illegible] this week. The weather has again been very wet and completion of harvest at the north has been interrupted. Complaints of the condition of new wheat are [illegible] are still receding in [illegible], while dry continues to sell readily at an advance. Trade in foreign wheat, although not active, [illegible] have made a slight [illegible] in this and the neighboring districts during the week. To-day's market was tolerably well attended. There was a fairly active [illegible] for white and red wheat, closing firm at a [illegible] advance in some [illegible]. Flour was more inquired for and steady. Corn met with average sale to consumers.

English Hay Crop.

[illegible], Sept. 29.—The English hay crop is now nearly secured. The color is generally better and the proportion of diseased samples less than expected; but on account of the changes of temperature and lack of moisture during the most critical period of its growth, the product is thin and [illegible]. On the continent except in Belgium, the crop, especially the German are reported as being less than a quarter of those of last season.
